Oct 09, 2018 Question: Q: microsoft office for os x el capitan Can anybody help me understand why I cant download office 365 2016 when clearly it should be supported by my system? May 13, 2019 Download and install Office 2016 on Mac OsX El Capitan I can download the office 365 pkg file under my corporate account, but when I try to instal I get the message I can't in the version of OSX that I have.. When a new version of macOS is released, the Office 365 for Mac Operating System requirement becomes the then-current two most recent.
